

NORWICH
UNIVERSITY™

Expect Challenge. Achieve Distinction.

January 18, 2013

To Whom It May Concern:

I am writing to you as a reference for Brooke Scatchard.

We had the privilege to work with Brooke on the trails at our new Outdoor Center at Norwich University. We tasked Brooke with upgrading and improving our existing trails, as well as making new trails to expand our trail system and connect some of the trails together.

Brooke's dedication, knowledge, and experience have done wonders for our trails and we have seen an increase in use as a direct result. Our trail system now allows for a Cadet Marching Trail, mountain biking, hiking, cross country skiing, snowshoeing and sledding. We also have a paintball course that Brooke helped design and install. And there are three fitness station areas with some of the best views imaginable.

Brooke's energy and enthusiasm for his work and our project never faltered. He quickly became known as "the trail guy on the bicycle" since he was frequently seen flying down the mountain or pedaling back up throughout the project. He and his crew were always professional and courteous as well.

Brooke also helped to promote our new trails by bringing many people over to try them out, as well as documenting his work through photos and videos. Many of these photos and videos became news articles or blog entries.

We look forward to continuing our relationship with Brooke in the future as we hope to expand our trails further.

If you should have further questions, please feel free to call me at (802) 485-2923.

Sincerely,

Erin Liston
Project Manager
