Professional Trail Builders Association:

Re; Brooke Scatchard

Two years ago I engaged Brooke Scatchard to build a one mile trail down the backside of Owlshead Mountain from Waterury to the Middlesex Notch Road. The terrain was very steep, very wet and much cluttered. No trail had existed previously. Brooke's ability to identify a route and to then construct a trail using only indigenous materials was exceptional. If you would like to discuss the project or to visit the trail, please feel free to contact me.

Very Truly Yours,
